

We are regular listeners to the radio station K-LOVE which is heard on FM translators. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, it would effect a lot of people in our community who make listening to K-LOVE a part of their day. K-LOVE provides a wonderful service and ministry to our community by playing Christian music without any commercials. K-LOVE is a very popular radio station that is listened to by all ages of people up and down the California central valley. Please do not let LPFM stations take priority over our current FM translator service. Keep K-LOVE on the air!

Thank-you, Tom and Cheryl Allen
